ARSALAN

Full-Stack Web Developer

Bihar, India • mohammadarsalan02013@gmail.com • Portfolio • GitHub

PROFESSIONAL SUMMARY

Full-Stack Web Developer specializing in engineering performant web applications with an emphasis on modular component architecture, responsive UI execution, and secure backend integrations. Proven expertise in building production-ready platforms using Next.js, React, Express, and MongoDB, with a focus on maintainable code bases, accessibility standards, and reliable API delivery.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** HTML5, CSS3, React, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, VS Code, npm, Vercel
- **Core Competencies:** Component Architecture, Responsive Design, Accessibility, Performance Optimization, Clean Code, API Integration

FEATURED PROJECTS

NexBook — Flagship Full-Stack Web Application [Live Demo]

Technologies: Next.js, React, Tailwind CSS, MongoDB, Auth.js

- Architected a production-ready full-stack note-taking platform featuring secure multi-provider authentication (Auth.js) and custom session management.
- Engineered robust data lifecycle workflows (archiving, trash restoration, and soft deletes) utilizing optimized MongoDB & Mongoose schemas.
- Designed a distraction-free, responsive user interface with Tailwind CSS, ensuring smooth component state transitions and fast load times.

Rahnuma Guiding Lights Foundation — NGO Web Platform [Live Demo]

Technologies: HTML5, CSS3, JavaScript

- Developed a multi-section web application adhering strictly to WCAG accessibility guidelines, screen-reader optimizations, and cross-browser responsiveness.

SkyPulse — Real-Time Weather Web Application [Live Demo]

Technologies: HTML5, CSS3, JavaScript

- Integrated third-party RESTful weather APIs with custom error-handling pipelines to deliver location-based real-time environmental data.

iTask — React Task Management Application [Live Demo]

Technologies: React, JavaScript, CSS3

- Built an interactive task-tracking application featuring full CRUD operations, local persistence, and a decoupled component architecture.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Independent Contract Work • 2025 — Present

Technologies: Next.js, React, TypeScript, Express.js, MongoDB

- Architected custom web applications using Next.js and Express.js, restructuring database queries to achieve low-latency throughput.
- Engineered secure, scalable RESTful API endpoints and integrated structured database models via MongoDB and Mongoose.

Frontend Developer | Open Source & Client Projects • 2024 — 2025

Technologies: React, JavaScript, Tailwind CSS, HTML5, CSS3

- Built responsive, component-driven user interfaces using React and Tailwind CSS with a strict emphasis on reusable code structure.
- Optimized frontend render cycles and asset delivery to ensure fast initial page loads across mobile and desktop environments.
